

PURPOSE

The JCSA Debt Service Fund provides for the payment of principal and interest on long-term general obligation debt of the JCSA. The Debt Service Fund provides financing for the Project Development Agreement (PDA) with the City of Newport News. Revenue Bonds, Series 2003, issued in 2004 to finance the construction of the Five Forks Groundwater Treatment Facility were paid off in January 2013.

Project Development Agreement with the City of Newport News. Revenue Bonds, Series 2008, were issued in 2008 to finance the agreement with the City of Newport News to share the costs of a Regional Water Supply Project. The PDA includes a provision for the JCSA to finance 20 percent of the total project costs and in return will be provided a minimum of 4 million gallons of potable water capacity per day per calendar year to meet future water demands. The estimated JCSA cost is \$50 million to be paid in two installments. The first installment of \$25 million was paid in December 2008 and the second installment of \$25 million will be paid in December 2019, if it is determined that the additional water is needed. If the second installment is not made available, water will be reduced to 2 million gallons per day.

Revenues – Contributions from the JCSA's CIP Fund are the basic source of revenue.

Expenses – Debt Service spending includes both the principal payments on bonds sold to investors and the interest payments on those bonds. Financing for the first \$25 million is being made over 30 years through issuance of revenue bonds. Bond principal and interest payments are estimated to total \$1,645,000 for FY2014. Future payments are projected to be \$1.7 million annually with the final payment to be made in 2040.
