**BUDGET COMMENTS**

A new Human Resource Information System will be implemented in FY 2009. The new software will make it easier for job applicants to apply for jobs, will streamline several administrative processes and will provide better management information. The time and effort invested in reviewing contracts with health care providers and sponsoring the County's Working Toward Wellness initiatives resulted in negotiated rates that were lower than the national trend. Our new deferred compensation contract has resulted in lower fees and streamlined choices and employee participation has increased.
